

VMAT and IGRT: Practical Implementation into the Clinic

COURSE CHAIRS

Vivek K. Mehta, M.D.
Robert K. Takamiya, M.D.
Tony P.Y. Wong, Ph.D.

JOINTLY SPONSORED BY
SEATTLE PROSTATE INSTITUTE
AND
THE INSTITUTE FOR
MEDICAL STUDIES

Supported by Elekta, Inc.

Course Description

This is a one and a half day Course for Radiation Oncologists, Medical Physicists, Dosimetrists, and Nurses interested in Image-Guided Radiation Therapy (IGRT). The program will include such topics as defining the target volumes; clinical implementation; billing issues; quality assurance; various tumor applications: thoracic, head and neck, breast, prostate, and abdominal; hypofractionated stereotactic radiotherapy protocols; and patient education. In addition to the didactic sessions, the course will include an onsite demonstration in real time of the CBCT technology. Each participant will receive a detailed manual which will provide additional information for each member of your team and a CD of the PowerPoint slide presentations.

Course Objectives

Upon completion of this training Course participants will be able to address target volumes for IGRT; billing, coding and reimbursement issues; practical aspects of setting up an image-guided radiotherapy program; the role of IGRT in the treatment of various tumor types; and research results.

Accommodations

Sorrento Hotel
900 Madison Street Seattle WA 98104
(206) 622-6400
reservations@hotelsorrento.com

Located one block from the Course location. Ask for the Seattle Prostate Institute rate. Reservations must be made at least two weeks prior to the Course to ensure the discounted rate.

FACULTY

Clinical Faculty

Vivek K. Mehta, M.D.

Maya Abboud, R.N., B.S.N.

Robert M. Douglas, M.D.

Daniel M. Landis, M.D., Ph.D.

Astrid D. Morris, M.D., M.S.

Robert K. Takamiya, M.D.

James R. Dingels, MBA, MPH, CPA

Physics Faculty

Tony P.Y. Wong, Ph.D., D.A.B.R.

Daliang Cao, Ph.D.

Jin-Song Ye, M.S., D.A.B.R.

David Shepard, Ph.D., D.A.B.R.

Angus Templeton, R.T.T.

Jianzhou Wu, Ph.D.

Planning Committee

Vivek Mehta, M.D.

Robert Takamiya, M.D.

Dawn M. Scott, Course Coordinator

Stanley Golanty, M.D., CME Advisor, IMS

(Not all faculty available at every Course)

2012 COURSE DATES

April 2-3

December 3-4

July 16-17

COURSE SCHEDULE

Day One 7:30 am – 5:00 pm

- Workflow Considerations for the Clinic
- Technical Aspects of IGRT Linear Accelerator with CBCT
- Physics, Commissioning, and Quality Assurance of Cone Beam CT
- Defining Target Volumes for IMRT and IGRT
- IGRT Therapist Education and Training
- Utilizing Active Breathing Coordinator
- IGRT in Thoracic Malignancies
- IGRT in Prostate Cancer
- IGRT in Head and Neck Cancer
- Body Stereotactic Radiosurgery
- Introduction to VMAT: Volumetric Modulated Arc Therapy
- Treatment Planning and Delivery of VMAT
- VMAT Clinical Utility

Day Two 7:30 am – 12:00 noon

- Live CBCT Patient Demonstration
- IGRT for Different Sites: Rationale and Experience
- Adaptive Radiotherapy
- Coding/Billing Reimbursement for IGRT
- Patient Education Materials
- Future of Radiotherapy (IMRT, IGRT, IMAT)

Accreditation: This CME activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of The Institute for Medical Studies (IMS) and Seattle Prostate Institute. IMS is accredited by the ACCME to provide continuing medical education for physicians.

Credits: IMS designates this educational activity for a maximum of **12 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

CME Information Confidentiality: In connection with your participation in this Continuing Medical Education program, you may receive patient information that is considered confidential. Confidential patient information includes any and all information that could be used to identify the individual patient. By participating in this CME program, you agree to maintain the confidentiality of all patient information and not release that information to any third party.
